Future Proof Your Profit NOW!

Ask yourself these three questions:

- How much time do I, my team or my clients spend on tasks that “create cost rather than generate revenue?”
- Could I reduce current costs by adopting a more global approach to such tasks?
- What if my competitors are thinking globally and I am not?

Your partners at Integrated Office Solutions can facilitate a flexible solution that is both time and cost effective for you or client’s business. Integrated Office Solutions coordinate and customise your own dedicated professional team entirely owned by you in the Philippines. Your team will operate as a direct extension of your business working towards your company’s ultimate outcomes.

Your team will operate in the time zone you or your client exist in and can cover 24 hours if needed to expand or process items outside normal business hours. Drawing from a pool of highly competent talent your team is staffed with skilled personnel in a diverse range of specialist fields providing flexibility and reducing labour-related risk.

85% of forward thinking companies outsource some of their infrastructure, why aren’t you? Let Integrated Office Solutions build your team in the Philippines today!

How it works

ITNewcom surveyed 60 executives from some of Australia’s top IT spenders and discovered...

Benefits

Reduce operational costs by at least 30%
Business demands realised with notably lower financial investment compared to employing inhouse local employees.

Increased efficiency
Your own dedicated offshore team that consists of highly competent staff specialising in each specific role, tasks and projects will be delivered on time with quality, efficiency and cost reduction.

Freeing local resources
Freeing resources to focus on your core business is the key to growth. Employing a dedicated offshore team will allow your local operations to apply their skills and energy on your primary competencies.

Increased knowledge pool
Access to an abundance of highly specialised talented people based in the Philippines making the pairing of team members to specified roles easier with increased efficiency.

Complete transparency
Business demands realised with notably lower financial investment compared to employing inhouse local employees.

Quickly extend development
Access to multiple technologies, high speed internet and highly skilled specialist staff, offerings will be enhanced and expanded directly. Extend to 24 hour coverage on a lower cost base if that is an advantage.

Full control without investment and risk
Recruiting, staff benefits, pensions, training, health and safety issues are no longer a concern offering you a worry free setup.

Why use Integrated Office Solutions?

Forward thinkers in business may ask, “Why not just setup a business ourselves in the Philippines?”

Legislation, visa, immigration and business laws are all obstacles faced by any foreigner wishing to establish a business in the Philippines. It is truly a complex minefield that needs local experience to overcome. If a non-Philippine national invests in a domestic market enterprise, the paid-in capital must not be less than the peso equivalent of USD200,000. This requirement is reduced to the peso equivalent of USD100,000 if the investment will involve advanced technology as determined by the Department of Science and Technology, or will employ at least 50 direct employees. Developing a 50% National Partnership with a resident of the Philippines is a fundamental law that must be adhered to.

Integrated Office Solutions has the experience, professional infrastructure and established relationships to secure an efficient, skilled offshore team for your business or your client’s business in the Philippines lowering labour costs and increasing profits.

Companies that embrace this game changing concept have reaped the rewards. This partnership is suited to small, medium or big business, the possibilities are only limited by your imagination.
